### TRANSCRIPTION

'So just to reiterate, just to re-stimulate this direction and this composition from one position to the next and how to critically diversify between those two positions this is what I wanted to do here. And by doing this you can actually indicate how these positions can work and how based on those positions erm, you can reposition, re-establish and reconfigure to a certain extent, erm the next stage and how the next stage works and why it works, why, why it contributes to that level of integration that level of depth and that level of repositioning from A to B to C and how that contributes to a level of inquiry a level of investigation a level of belief that cant be summoned independently, it cant be summoned through sheer physical or human energy but has to be summoned above, above and beyond, above and beyond the positions of where humanity is in fact currently stated and why that position is...'
